PROFESSIONAL EXPERIENCE

Senior Performance Marketing Specialist

Aug 2024 – Present

First Living Spaces Pvt. Ltd. · Mumbai

YUKIO CO-LIVING | Co-living Real Estate, backed by TCG | Google Search, PMax, Demand Gen, Meta, Bing, LinkedIn

- Grew monthly revenue to ₹1.5 Cr at a 5x LTV:CAC by leading end-to-end GTM strategy across Google, Meta, Bing, and LinkedIn.
- Increased category share from 4.6% to 19% and brand searches from 9.3K to 34K by shaping content strategy with audience insights and high-performing ad creatives.
- Partnered with Product & UX teams to shape the product roadmap - leveraging insights from Mixpanel, Branch, and Microsoft Clarity to optimize user journeys, launch high-impact features, and wireframe landing pages that improved CVR by 30%.
- Launched a Google Maps Search campaign that increased Maps click share from 2.5% to 38%, doubled site visits, cut CPSV by 50%, and was published as a Google case study.
- Increased lead conversion by 20% by refining the call center script based on keyword and creative intent.

Senior Performance Marketing Specialist

Jan 2022 – Aug 2024

Dentsu Aegis Network · Pune

- Managed ₹5 Cr/month in paid media across Google and Meta, delivering 25% QoQ revenue growth and 18% blended CPA reduction across 8+ enterprise clients in BFSI, E-commerce, and Real Estate.
- Promoted twice in 2 years 8 months - Associate Analyst (Jan '22) → Analyst (Jul '22) → Senior Specialist (Apr '23).
- Led a 5-member performance marketing team and owned CXO-level stakeholder reporting (MBRs, QBRs, ABRs) - sustaining a 9/10 client satisfaction index across all active accounts.

BAJAJ ALLIANZ | Term Insurance - BFSI | Google Search, Demand Gen

- Reduced cost of acquisition by 30% by rebuilding Google Ads account architecture - restructuring ad groups by purchase intent and integrating Offline Conversion Import.
- Improved lead-to-policy conversion rate by 25% by designing intent-specific landing pages per keyword theme, applying on-page SEO, and optimizing the buy journey from a UI/UX perspective.
- Grew brand searches by 35% and reduced CPL by 15% by rebalancing the awareness-to-performance media mix using attribution model analysis.

IDFC FIRST BANK | Lending Products - BFSI | Google Search, PMax, Demand Gen, Meta

- Reduced cost per qualified application by an average of 20% across 5 product lines - Education Loan, Personal Loan, Credit Card, NRI Savings Account, and FIRSTmoney - by managing and optimizing paid media end-to-end.
- Co-designed GTM strategy for IDFC FIRSTmoney with BCG using Google Maps PIN-code data to identify HNI residential clusters - deployed geo-targeted Search and Meta Lead Ads, achieving ₹7 Cr in credit line sanctions within 45 days of launch.
- Reduced cost per soft approval by 28% by mining CRM data across credit profile, income band, and PIN code - refining audience targeting and excluding non-qualifiable segments.
- Drove 25% business growth quarter-on-quarter by advising the CMO on data-driven enhancements across product, website, and marketing strategy.

OHSOGO | E-commerce Marketplace | Google Shopping, PMax, Google Search

- Increased AOV by 25% by segmenting buyers into AOV tiers, building lookalikes from high-value cohorts, and retargeting product-page visitors with premium SKU creatives to shift purchases toward higher-AOV products.
- Reduced post-purchase cancellations by 40% by excluding COD-heavy geographies and shifting spend toward prepaid, high-intent audiences.
- Built a SKU scoring model (COGS, price, orders, ROAS) to rank products - channeling only the top 30% of SKUs into PMax and Meta campaigns, and sorting landing pages by score to maximize profit on ad spend.

CROMA, LEVI'S, MARKS & SPENCER | Accounts Audited

- Increased M&S's search campaign CVR by 18% by auditing and fixing landing page misalignments - redirecting homepage-routed traffic to relevant product pages.
- Rebalanced Croma's media mix by revealing Meta's underreported contribution - a 30-day attribution window showed significantly higher impact than the default 14-day view, which had masked Meta's role in a 21-day electronics research cycle.
- Improved Levi's Shopping performance by restructuring product titles to include fit, wash, and style attributes and populating missing feed attributes (gender, age group, material) - driving a 30% CTR uplift and a 25% reduction in CPC.

AMEX, BAJAJ AUTO, HERO VIDA, GO MECHANIC | New Business Development

- Generated ₹12 Cr in agency retainers by leading strategy and solution design for 4 enterprise pitches and presenting media blueprints to C-suite stakeholders, achieving a 50% win rate.
